StroudAlthough impressive in scope, this is not the first time an author has attempted an A-Z listing of all things "Bondian." Although the authors do score with some interesting compilations, such as number of men Bond's killed per movie, or a concise summary of the movie and book locations, time is also spent rehashing movie and book plots, several of which were laden with errors which makes one wonder if they watched the movie or just wrote the book from memory. Overall, not an impressive volume.8 of 11 people found the following review helpful. Unique Bond Encyclopedia!!By L. M. VotanI am a serious fan of the Bond films, and enjoy any written works on the topic. But what set this book apart besides its marvelous detail, was that it also paid homage to the novels, which, thanks to the preponderance of the movie industry,

one may not even know about! I knew that Ian Fleming had written books, but had no idea that there is an ongoing series of Bond novels, including some recent and current ones that are not even in movie form. At least not yet. Further, the thumbnail sketches included in this book about each novel let me know that they, and not just the movies, are exciting and worthwhile.Thanks to this book, I have discovered a whole new Bond interest/outlet. In fact, I immediately went out and bought four of the recent Bond novels for my library, have read three, and plan to acquire all of them over time.Bond fans should not miss this book!

Agent 007 stars in his greatest adventure in this all-inclusive reference guide to all things Bond. The Book of Bond catalogues facts even the most die-hard fans don't know, with every aspect of the Bond phenomenon detailed from A to Z. From Academy Award nominations and wins, beauty queen heroines and hotels where Bond stayed to locations for lovemaking and more, it's the ultimate Bond dossier. An example of the detail the authors delight in: Goldfinger's 1937 Rolls-Royce Phantom III The culmination of thousands of hours of research, with the cooperation of such luminary institutions such as The British Film Institute and the Simplon Orient-Express, The Book of Bond is the first all-inclusive Bond almanac-encyclopedia!

The automobile was custom-built for the Rt. Hon. Lord Fairhaven, Anglesey Abbey, Cambridge, England. The car was owned by him until 1962, when it was purchased by Eon Productions for the movie Goldfinger. On the folding desk in the rear seat of this vehicle, Goldfinger wrote a check to James Bond after the memorable golf match. This machine was sold by Sotheby's on June 28, 1986, to Steven Greenburg, co-owner of the new York Palladium, for $121,000." marketing/FACTs
