Edited by Baroque scholar Judith Schneider, with expert fingering suggestions by Stuttgart Professor Maria Sofianska, the long-awaited Volume II of Bach's essential masterpiece contains 30 pages of extensive research and insight into Baroque music. Painstakingly compared with the most important autograph and manuscript sources, this comprehensive edition includes thorough analysis of written and improvised ornamentation, a discussion of period keyboard instruments, insight into pedaling, touch, tempo and rhythm issues, as well as a discussion of preludes and fugues. The comb binding creates a lay-flat book that is perfect for study and performance.
