The words are listed alphabetically in how they end so all the letters from 2 letters up to 11 in some cases are listed in numerical and alphabetical order. On your 'Go To' tab you can click on the letter required. Of course, if you want to go to the 5's you're going to have to do some scrolling to reach there. If, for example, you want a 5 letter word ending in A it might be quicker going to B and scrolling back. Some letters have WAY more entries than others. Q only has 3 but hey, every little helps! An AMAZING list and I bet you'll spend some time looking up the words to see what they actually mean. A great way to keep those little gray cells growing! 2 of 2 people found the following review helpful. Just what I needed By Yasmin C. Spiegel A good "go to" to

get you out of tight situations when you want that extra score space, but can't think of a word to "end in.....". Now I have a dictionary that lets me "back into" my turn. It is really a reverse dictionary, being organized with the last letters in alphabetical order. You still have to hunt if you are looking for "em" rather than "tam", but it isn't too onerous. Glad for another tool to strengthen my game.0 of 0 people found the following review helpful. Five StarsBy Loreto LadyLove and need it

Ever play a word game and need to find a word that ends in Q, W or Z? Most dictionaries present the word lists in alphabetical order, sorted by the first letter of a word. BackWords is unique because you're able easily search words using the last letter. Useful for school libraries, handy for building vocabulary for playing word games and completing crossword puzzles. Great gift-giving idea for those word games in your crowd. If you like word games, writing songs, or creating poetry, you will LOVE BackWords. As a writer, I am discovering this to be a useful tool and a valuable addition to my reference library. NOTE: Two reviewers said that the index isn't linking properly in their Kindles. We've since revised it to work with Kindle's "Active Table of Contents" and "Go To" guide items. If you have further ideas for making it even more useful, please let us know!
