**Chad Johnson : BASS SCALE FINDER 9 X12 SUPPLEMENT TO THE HAL LEONARDBASS METHOD**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised BASS SCALE  
FINDER 9 X12 SUPPLEMENT TO THE HAL LEONARDBASS METHOD:

2 of 2 people found the following review helpful. Look Out Grisman Here I Go!By CustomerPretty comprehensive  
presentation of all available scales: IDPLMAL, harmonic minor, melodic minor, whole tone, diminished scales! The  
only thing that could make it better is instruction on fingering. You are left to your own devices on that. It's 6X9"

format could stand to go 8X11" but it's completely legible as is. Kudos Hal Leonard4 of 4 people found the following review helpful. Exactly what I neededBy Jason Scott CarterThis book is invaluable for learning mandolin players. Can also be used, as I do, for learning scale shapes for tenor guitar and as a layman fiddler with poor music notation reading skills.1 of 1 people found the following review helpful. Tiny images, tiny type, lots of informationBy 12345This book is small, therefore very easy to carry, but it is like it was shrunk down. Both the images and type are extremely difficult to make out, even if your eyes are close to 20/20. The information is nice to have on hand.

(Bass Method). Learn to use the entire fretboard with the Bass Scale Finder . This book contains over 1,300 scale diagrams for the most important 17 scale types, including major and minor scales, pentatonics, the seven major modes, diminished, melodic minor, harmonic minor, and more, in all 12 keys. Basic scale theory is also presented to help you apply these colorful sounds in your own music. A perfect supplement to any bass method.
