Tom Waits : Beautiful Maladies before purchasing it in order to gage whether or not it would be worth my time, and all praised Beautiful Maladies:

Pianists BewareBy Daniel FullerTom Waits' ballads are the gems of this compilation, but the piano parts in the transcriptions do not match the recordings. This would make sense where the piano was absent in the original version, as in much of the more raucous material...but the songs in which Waits sings over his own piano accompaniment (Whistle Down the Wind, Soldiers' Things etc.) should have been more faithfully rendered. Only a basic outline of the chord progressions is preserved, with sections missing in some cases. Fortunately, most of Waits' solo introductions are transcribed relatively faithfully. A competent pianist could reconstruct the parts by studying the recordings, but I'm disappointed at what seems to be laziness on the part of the publisher in producing accurate transcriptions.0 of 0 people found the following review helpful. Five StarsBy David BurnhamSo glad to have this sheet music. I very much enjoy playing these!0 of 0 people found the following review

helpful. Great Songs, but Overly Simple Arrangements By Beth I love Tom Waits, so it's great to have a book containing so many of my favorite songs. This book works well as a fakebook to improvise from, but the piano arrangements on their own are far too simplified. The left hand is nothing but a basic, one-note bassline, while the right hand is just the melody. Not exactly what I was hoping for, but with a little bit of creativity on the part of the musician it can still be useful.

Forty-seven songs including: The Fall of Troy from the Dead Man Walking soundtrack, Franks Wild Years, Good Old World, Jockey Full of Bourbon, A Little Rain, Shoreleave, Rain Dogs and many more.

From the Back Cover This is the sheet music to Tom Waits: Beautiful Maladies.
