George Grove : Beethoven and His Nine Symphonies before purchasing it in order to gage whether or not it would be worth my time, and all praised Beethoven and His Nine Symphonies:

0 of 0 people found the following review helpful. Old AnalysisBy Anthony M BarnesThe text of this book is old going back to the 19th Century. The analysis is still relevant since it is the only analysis from this era. Accordingly, it is somewhat difficult to read because of the archaic writing style.1 of 1 people found the following review helpful.

Beethoven done rightBy AlexisGreat book!! I wish it was in hardcover but of course Dover Books doesn't really do hardcovers but it's very nice, very legible, readable typescript and fonts, nicely done. It's a small sized book, not the regular Dover size of 8" x 11", this one is like 6" by 9" so it does fit great in your hands for a very personal reading experience.1 of 1 people found the following review helpful. Five StarsBy R. Gutowgreat insight on his symphonies.

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.
