Chuck Berry : Best of Chuck Berry: Easy Guitar with Notes Tab (Easy Guitar Play-Along) before purchasing it in order to gage whether or not it would be worth my time, and all praised Best of Chuck Berry: Easy Guitar with Notes Tab (Easy Guitar Play-Along):

4 of 4 people found the following review helpful. Do not waste your money.By AllyMost guitarist will tell you that if you want to play lead guitar in any group then you must learn all Chuck Berry's stuff, that being said, do not buy this book, it will not teach you how to play a true Chuck Berry song. I would not recommend this to a first day student, its missing bends, slides, sounds out of tune and will leave you sitting there thinking you could have use the money you spent on this garbage buying a six pack of taco supremes at taco bell with a large soda to wash them down with. Hal

Leonard should be ashamed of this and send out an apology to everyone that fell for this worthless and obvious attempt to take money out of peoples pockets then call Mr. Berry and beg for forgiveness. 1 of 1 people found the following review helpful. but this is a poor approach. Also By the bowl This book has a decent song selection (relatively speaking, of course. Chuck was sheer genius). The problem is that the transcriptions are provided in mainly open "cowboy" chords, in the wrong keys. There are references to using a capo to get to the right key, but this is a poor approach. Also, the transcriptions are mainly single note melody. The really good double stops aren't there, for the most part. It is a starting point; nothing more. 1 of 1 people found the following review helpful. Three Stars By S. Sigel A little too basic for intermediate guitar players...

15 classic songs from this rock and roll guitar icon from the '50s in accessible easy guitar arrangements with notes and tablature. Includes: Back in the U.S.A. * Johnny B. Goode * Memphis Tennessee * No Particular Place to Go * Rock and Roll Music * Roll over Beethoven * Sweet Little Sixteen * You Never Can Tell * and more.
