before purchasing it in order to gage whether or not it would be worth my time, and all praised Betting Maidens and 2-Year-Olds: Analytical Approach to Future Winners by Dan Illman:

LozadaDan Illman's first book for DRF Press is a nice companion to Lauren Stich's Pedigree Handicapping, also from DRF Press. While Ms. Stich's work focuses more on overall pedigree, Illman's piece has a distinct tilt towards win early types, which is helpful with early season racing at Keeneland, Belmont and Churchill Downs particularly. This one will help you more for analyzing the stallion side of the pedigree, but I would have liked to have seen more on the wider range of maiden races, including maiden claiming races and greater analysis of turf racing. Use this one to supplement the Stich book rather than as a starting place.0 of 0 people found the following review helpful. Book was like new.By Charles BergerWell written by the author.
