Welcome to this first volume of large print Bible Verse Codeword Puzzles, Each puzzle is a Bible verse taken directly from either the King James Version or the New International Version. The idea is simple each letter in a puzzle is represented by a number - so for instance, the number 15 might represent the letter 'K', which would mean every square with the number 15 in it would be a 'K'. All you have to do is figure out which number represents which letter and crack the code!! Three letters are filled in for most of the puzzles to start you off These puzzles are both entertaining and challenging. Your reasoning power and logic will be tested plus a good knowledge of the Bible can also help. All the Bible verses used for these puzzles are listed in the back of the book
