I got three different ones for my three daughters ages 10-7, and they work on them while sitting in our weekly adult Bible study. Each page has a full passage from the Bible on one side, and then a related word search facing it. I really like the addition of the passages. Words like "quarrel" and "riches" don't really teach you anything about the Bible by themselves. But written in context, you can learn something. These books are the perfect size to fit in a standard Bible case, which makes them easy to slide in right next to Bibles and hymnbooks. I didn't really realize quite how many puzzles were in each one (~80, depending on the book) so they are slightly fatter than I expected. If your Bible case is already stuffed to capacity, you may have to remove a few things to get this in! (Yes, does list that dimension in the product description, almost half an inch, I just wasn't paying attention . . .) For those interested in what translations are used, it is a pretty even three-way split between KJV, NIV, and NLT, with a few other translations thrown in here and there. The Word of God is quick and powerful, and my kids are reading it and enjoying it, so it gets a full five stars for content and high quality book binding.0 of 0 people found the following review helpful.
