Billy Joel Greatest Hits Volume 1 and 2 By Yes Fan I'm so glad I purchased this. I was looking for "Goodnight Saigon," and this songbook had it. I used to be a very big Billy Joel fan (not so much these days), but purchased this for sentimental reasons as I used to have all his songbooks back in the day. He's still a American rock legend, obviously, and is an excellent songwriter. His band was one of the best, and his concerts were always the best that he could give. A+++++! 0 of 0 people found the following review helpful. Classic for new piano

playersBy Juan Paulo RoldnGreat songs for a unique american composer. His music has some elements of classic Beethoven and Gershwin. Good transcriptions of the piano parts. I didn't give the 5 stars because in "Piano Man" and "New York State of Mind" they missed the piano intro, but is a good book to practice some classics of the 70's and 80's.
