I gave it one star because technically none of it is wrong, but definitive guide strains credibility. It will get you through the main storyline, but as small as book is, as lacking in any illustrations as the book is, as lacking in any side quest information as this book is, 21.00 is a gigantic ripoff. For what it is, 4 to 7

dollars is the max you should pay for this. It would be good for a 7 year old but not for anybody older. 0 of 1 people found the following review helpful. Five Stars By Fr. Dr. Robert Excellent continuation of the series. Explore the add-ons too. Well worth it

This guide will teach you how to play from the very beginning. The comprehensive walkthrough will help keep you on track. This guide also gives descriptions as well as locations of all the important objects like gear, weapons, voxophones, vigors, and infusions. If you want to have fun from day 1, then "Bioshock Infinite: The Definitive Game Guide": is the book for you.
