Great fun!By CustomerI love Sudoku and Tridoku so I thought I'd give this a try... I just started with this book so I've only done about 10 so far but they're a lot of fun and it wasn't hard to learn at all. I definitely recommend if you like these types of puzzles!1 of 1 people found the following review helpful. Really fun!By Kathleen YoungI've purchased this book a couple of times because I really like these puzzles. Wish they would create a new one. I really like this one and Tri-du-ko.

When the weather outside is frightful, the solving inside's delightful with these fun and challenging puzzle books. They make great stocking stuffers, too!
