**Steve L Cooper, Carol W Cooper, J Paul Holcomb, Sue Ann Holcomb : Blotzbook: The INK BLOT game for creative minds!** before purchasing it in order to gage whether or not it would be worth my time, and all praised Blotzbook: The INK BLOT game for creative minds!:

What do you see in the blot? Players write what they see...or whatever the blot inspires them to write. (In BLOTZBOOK, there are no wrong answers!) Answers are read aloud anonymously, and players try to match each answer with the correct player. More fun than you've ever had in black and white! BLOTZBOOK is ideal for 6-10 players but works great with larger groups, too. Contains complete rules and 80 blots... everything you need to turn

your next party into a creative success.
