Paul Oliver : Blues Fell This Morning: Meaning in the Blues before purchasing it in order to gauge whether or not it would be worth my time, and all praised Blues Fell This Morning: Meaning in the Blues:

8 of 9 people found the following review helpful. Blues Fell This Morning By max tinkle This is an outstanding book on Black American popular music and the events and lifestyles surrounding its creation. Paul Oliver's research is far-reaching, statistics, character descriptions and cities, towns and areas that were the melting pots of Black American culture. Superb! 0 of 1 people found the following review helpful. Not a blue experimenter By Kenneth A. Pfeifer Came quickly and as advertised. Oliver is the man to read if you want info on the blues

This is a new, thoroughly revised edition of Paul Oliver's classic study of the blues. First published in 1960, this remarkable book has not been superseded and its reappearance will be welcomed by all who wish to understand the complexity of meaning in the blues and the experiences which they expressed. The book examines the functions of the blues as black American folk music recorded during the 78 rpm era, from the 1920s to the 1950s. The lyrics are quoted extensively throughout the book, revealing their significance as a means of communication within black society. The author shows how the themes of labour and unemployment, migration and the Depression years, love, sex, and marriage, crime, violence and imprisonment, disasters, sickness, war and death are expressed in black idioms and he discusses their meaning on many levels.

' ... remarkable ... a definitive study in breadth and depth of the themes, backgrounds, imagery and motivation of the blues.' The New York Times
