Great Backing Tracks By ZiftGranted, a few of these songs are not really suitable for play-along (Pride and Joy, for example) and the TAB is only for the solo jam parts, not the melody, but when it's good, it's very good. There are some great backing tracks (Born Under a Bad Sign, All My Love). If you can read standard notation, you can play the melody. It also comes with 'The Amazing Slow Downer' which allows you to change the backing to any key without changing the tempo, and to slow down the tempo if you want. My only real complaint is that there aren't many more of these books for blues. 0 of 0 people found the following review helpful.

(Guitar Play-Along). The Guitar Play-Along Series will help you learn to play your favorite songs quickly and easily! Just follow the tab, listen to the audio to hear how the guitar should sound, and then play along using the separate backing tracks. The melody and lyrics are also included in the book in case you want to sing, or to simply help you follow along. The audio is accessed online using the unique code inside each book and can be streamed or downloaded. The audio files include PLAYBACK+, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right. This volume includes 8 songs: All Your Love (I Miss Loving) * Born Under a Bad Sign * Hide Away * I'm Tore Down * I'm Your Hoochie Coochie Man * Pride and Joy * Sweet Home Chicago * The Thrill Is Gone.
