**Bob Dylan : Bob Dylan - Made Easy for Guitar** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bob Dylan - Made Easy for Guitar:

The chords are loosely related to the chords Dylan might play. For example, "When the ship comes in", this version just gives a "G" and "C" for the first six measures with 4 strums per measure. Free internet versions of the song add in a few more chords-- at least it is more interesting that way. "A Hard Rain's gonna Fall"--This version just has you strum the D chord forever. Other versions at least put in a couple D6 and Dsus chords. They aren't that hard and add some variety. Yes, there are hash marks for chord rhythm, but they are a joke. All they show are 4 chords per measure for 4/4, or 3 chord for 3/4 time! That is useless. You only need rhythm marks if you are going to have some variety from your basic strumming. This book is

what it says, Easy versions. The problem is, when you play them they dont sound much like Dylan songs.I have ordered a different songbook to try again.What bothers me most about these songbooks, is that they all say the songwriter was the author. This is very misleading. Yes, you would want Cat Stevens or Bob Dylan to be involved with a book that claims he is the author-- because then you would think, even if it were easier, he would make it sound right.But all it means for most of these songbooks is they gain some rights to do whatever they want arranging these songs. Dylan plays no part whatsoever.Its deceptive.3 of 3 people found the following review helpful. Bob Dylan Made Easy For GuitarBy Glorial purchased this item on .com using my prime free 2 day shipping. I love this book. I am just learning to play the guitar and I love Dylan and I am able to play the tunes. There are some chords that I am not able to play but it does not hinder the tunes in any way. As I advance, I will add those chords in. I carry it with me all the time. I like the cover photo too. Great selection of important Dylan songs. If you like Dylan and want to play easy guitar it is a must have item. I also purchased Bob Dylan The 6 Chord Songbook from .com and The Little Black Songbook Bob Dylan. Please see my other reviews. I love them all!Gloria2 of 2 people found the following review helpful. Ok but not exactly easyBy UrsulaI bought this because I love Dylan songs and I wanted to be able to play more of them. But I found that some of the songs were harder to play than another songbook I had been using.Particular on "I shall be released" the chords are very difficult and I have no clue why the author included it. There are so many songs to chose from that have simple chords which could have been included in this song book.
