Bon Iver : Bon Iver - Bon Iver before purchasing it in order to gage whether or not it would be worth my time, and all praised Bon Iver - Bon Iver:

But whatever, it's not the book's fault that the music is easy to play on the piano. ALTHOUGH, some of the music does not sound quite as I would expect or remember from the actual songs, but that happens with most music whenever it is transcribed to another instrument. The book quality itself is very nice and the quality of the album artwork on the front is really good. I recommend it to whoever needs the music for a very excellent album. So far, I enjoy it. When I started to play it, the difference in the sound kind of distracted me which, to me, ruined the initial experience, however, I can get used to it. It is after all, on a different instrument than what was used on the actual song record. If you want something more advanced, I don't know if there is anything else available,

and if there were... I would be greatly disappointed because I did not find one. 1 of 1 people found the following review helpful. Great for playing with melodies and ideas, not so great for solo piano By David A. Ridley Obviously I love the music, however it doesn't translate so well to a piano piece when it is meant to be layered with vocals and other textures. I bought this book to play around with the melodies and it is just fine for that, but beware if you think this will allow you to sit down at the piano and sound like Justin Vernon. 1 of 1 people found the following review helpful. Nice book! By Katie Most of these reviewers are pretty skilled as this book is quite a challenge for me! But I love it!

(Piano/Vocal/Guitar Artist Songbook). Recorded in a remodeled veterinary clinic in Fall Creek, WI, Bon Iver heads in new musical direction on this eponymous sophomore CD, thanks to guest artists "allowed ... to come in and change the scene." Our matching folio features all 10 tracks from the GRAMMY -winning album: Beth/Rest * Calgary * Hinnom, TX * Holocene * Lisbon, OH * Michicant * Minnesota, WI * Perth * Towers * Wash.
