Bennett Cerf : Book of riddles (Beginner books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Book of riddles (Beginner books):

Basically, garbage.0 of 0 people found the following review helpful. Five StarsBy readerThese jokes made my 7 year old and my husband laugh.1 of 1 people found the following review helpful. A delightfully clever and funny book, full of non-sentimental humorBy fabloraineA delightfully clever and funny book, full of non-sentimental humor, I highly recommend this book for anyone who harbors a love of the English language. Youngsters will be delighted by the simple twists and turns that Mr. Cerf takes the reader through in the gentlest of manners.

Children love jokes, so what could be a greater encouragement to reading than a BOOK OF RIDDLES? Every turn of a page brings a hilarious answer to a delightfully silly question fro beginning readers age 5-8. 'I can read it all by myself' is the Beginner Books motto, and behind it is an understanding of how important it is for children to take pride and pleasure in their early reading. Beginner Books have been designed to appeal directly to children through the use of humour, rhyme, and bright pictures that can be 'read' even by the non-reading child. Some Beginner Books are simple stories, others are hilarious nonsense: both types have been designed to give children confidence and make them want to go on reading.
