I thought shorter works would be good to tackle myself and maybe for students1 of 1 people found the following review helpful. Happy to have found this book!By Massachusetts GirlI have been looking for a certain Brahms piece, and, thanks to another reviewer, learned it was in this book. I promptly ordered it. I'm thrilled to have found this book, so reasonably priced too. My only complaint is that the book came creased and appeared a bit shop-worn. Since it's not a gift, but for me, I decided not to contact ---my books tend to get worn anyway.1 of 1 people found the following review helpful. The sheet music has

During the latter part of his life, Brahms wrote only sets of relatively short pieces. With their formal and stylistic perfection, they are among the most valuable of the late-Romantic additions to piano repertoire. Included in this 128-page edition are 30 pieces by Brahms, preceded by a helpful introduction which contains definitions of the ballade, rhapsody, capriccio and intermezzo.
