Would be perfect for baseball fans who enjoy various types of puzzles. It does help to have some knowledge about the game, players and history when working some of the puzzles. Answer key is in the back if you need hints. Brain Games books like this one have increasing levels of difficulty for the puzzles with those at the back of the book being more difficult. Gave this as a gift and it was a "hit"!0 of 0 people found the following review helpful. Five StarsBy PegasusFriend enjoyed4 of 4 people found the following review helpful. The hubby LOVES it!By A.
