My elderly mother loved this book and did the puzzles in record time. This helps her keep her mind working and of course gives her something constructive to do. The print is large and easy to read, and the puzzles are a great challenge not being to easy. The binding is very good and is wire bound for extra strength. This also makes it very easy to turn the pages and keep her place. Many of her puzzle books look very worn by the time she's done and its frustrating for her to find the page she left off sometimes skipping puzzles. With the wire binding she is able to put it down and pick it right up to finish the page she is on. This is one of her favorite puzzle books and I highly recommend it for any person who may be sight challenged or maybe even just learning to read. An excellent book!1 of 1 people found the following review helpful. Awesome purchase!By Miss KaltenbachI purchased several of these for my grandmother who has Dementia. She's had several small T.I.A.'s so her right side which has

always been her dominant side is now weak. So getting these puzzles have helped force her to use her dominant side again. It's a slow process but being in large print is helpful. 0 of 0 people found the following review helpful. Large print and spiral ,great combo for ease of use..By TammyThe Large Print is a perfect size for anyone wanting to take the strain off of their eyes! Got this for a 90 year old great grandma..The spiral makes it much easier for her to turn the pages and keep them there.She was very happy with this gift! :)

Have fun and get a healthy dose of mental exercise at the same time with Brain Games Circle-a-Word! Since each of the more than 40 word searches in this title appears in readable type and is spread out over two full pages, solving remains easy on the eyes--but not on the brain! Puzzle difficulty increases as the book progresses, and many different kinds of word search puzzles--such as Blankety-Blank, Shrouded Summary, and 3-D word searches--can be found inside. Spiral binding allows for easy puzzle solving, whether at home or on the go.
