It is a wonderful companion to study with. I have not used the CD yet but it looks great...I hope it is broken down into small parts but we'll see...if not I have a

pause button. The only thing that could have made this a lot better would have been some analysis and or more writing. There is a 2 page preface with minor details, then there is a very short page per concerto talk about some of the musical elements. I had a PDF of the score so like I said I didn't really need it, but it is good and helpful nonetheless. I teach IB Music in China so this is great to have a small laid out copy that the kids and I can easily see and follow along with. I recommend it for someone who needs it for study, or perfect for the fan or hobby learner of Bach.0 of 0 people found the following review helpful. Five StarsBy Tan Yeow KimThanks

(Eulenberg Audio plus Score). The Eulenburg Audio+Score Series covers more than 200 years of the world's favorite classical music.
