Mr Andrew M Robson OBE : Bridge Lessons: Hand Evaluation the Losing Trick Count before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bridge Lessons: Hand Evaluation the Losing Trick Count:

1 of 1 people found the following review helpful. Bridge Lessons: Hand Evaluation and The Losing Trick CountBy rookiIRobson's book was the first that I have read that covered losing trick count. I found it easy to understand and helpful. I know it will improve my bidding. I would like to have seen a bit more depth but what is included is perhaps adequate. As nearly as I can tell (he doesn't say), he is using ACOL bidding to which I am not accustomed. However,

one can assume a little different bidding and the principles still apply. I searched for "losing trick count" and found one other book available for kindle. It was more than twice the price and more than half a century out of date. For an advanced beginning through intermediate or even somewhat advanced duplicate player who wants something for their kindle, Robson's book is well worth the very modest price. Frankly, I wish some of my recent casual partners had read it. 0 of 0 people found the following review helpful. Absolute clarity of complex situations! By Tom Mulvey Loved the logical way ideas were developed and the very approachable language. Andrew should be compulsory reading for all those who play for enjoyment through improvement. 0 of 0 people found the following review helpful. Pitiful kindling By James Dace The incredible number of overlooked kindle mistakes in this book completely ruins any success it could have had at teaching how to bid. The lack of any attempt at editing shows that the writer wasn't interested enough in his own work to give it any attention. I would like to see a new edition of this book when it is given the editing it deserves.

In a compelling format, each page contains a lesson and an illustrative deal. Not only will you further your understanding of the specific topic, you will also learn more about the beauty of the game in general.
