I liked hat he did not give any of his own opinions on the movies, but delivered you straight information and facts. Lots of good (and large) photos and movie poster images. Provides info on both the Tarzan actor and Jane (where applicable) for each movie.3 of 3 people found the following review helpful. Buy this book!By Keith K.Any fans of Tarzan in the movies will love this book. It's a must have for lifelong fans of Edgar Rice Burroughs' most famous creation, as well as those who only know the Ape Man from his celluloid adventures. It's comprehensive and a beautiful coffee table book.1 of 1 people found the following review helpful. Pure fun for Tarzan movie fansBy L. RayThis is a really enjoyable book for people that are fans of Tarzan movies. The artwork is beautiful. You get separate chapters for each movie and for the

different Tarzans and Janes. You can skip around and read about your favorites. Now I'm going back and watching many of my Tarzan movies that I have on DVD. I will use this book as my reference from now on.
