Satine Phoenix : The Action Heroine's Journey: Warping, Distilling and Just Plain Exploding Monomyth to Fit Her Story For Writers. before purchasing it in order to gage whether or not it would be worth my time, and all praised The Action Heroine's Journey: Warping, Distilling and Just Plain Exploding Monomyth to Fit Her Story For Writers.:

0 of 0 people found the following review helpful. A terrific book that guides action heroines' journeysBy M. C.Brilliant. Simply brilliant. Honestly, though I'd take away a half-star if I could because the back-and-forth bantering between the two authors very quickly became irritating to the point where it was sometimes difficult to figure out what point was being made. A rewrite without so much cutesies would improve this. With that said, however, this book is simply brilliant! Loved it.

A long time ago (in 1985) a famous Hollywood memo outlined the 12 Steps of the Heros Journey. It simplified ideas about MONOMYTH, which inspired Star Wars and countless other creative works. But what about the female protagonist? How is her journey the same? How is it different? Writers, directors, producers and actors, as well as fans of todays hugely popular Action Heroines need to know. The Action Heroines Journey tackles these questions head on. Equal parts humorous and informative, this book warps and distills his monomyth to fit Her Story. Satine Phoenix: is a university trained artist and writer who lives Los Angeles. RK Syrus: uh well, youll see. "As a storyteller, this is an important eye-opening exploration into the unique voice of the womans journey." - Megan Hutchison [Black eM]
