This book is great, but the execution is a bit strange. Instead of being a straightforward encyclopedia of the Adventure Time universe, it was written from the perspective of Marceline's dad Hunson Abadeer... who is essentially their world's devil. So all he does is make fun of the characters throughout the whole book and talk about how he'll enslave, murder, or soulsuck them. It's really creative, fun, and beautifully illustrated, but it might upset some younger kids who won't get the joke. I stopped reading it to my toddler who loves the series, because it confused her that it was so mean to characters she liked. Now she just enjoys looking at the artwork. But for an older kid or adult fan that loves Adventure Time I think it's great and carries on the offbeat nature of the show.

I'm not going to lie - I bought this for my daughter for Christmas, just to discover that she already owned it - so I ended up keeping it for myself. A fun little book for one of the most awesome shows ever devised. I remember when this show first started airing - I never paid much attention to it because the colorful characters and candy people made it look like a kids' show. My teenage daughter forced me to sit down and watch the first episode with her. I'm glad she did! This show is awesome and the book is a lot fun. If you're an Adventure Time fan, this is an absolute must-buy. If you haven't given the show a chance yet, you don't know what you're missing. I'm a 37 year old man into guns, knives, cars, and cigars - and I find this show to be amazing. Safe to watch with the family but twisted and weird enough to hold my attention. The characters actually grow on you. Pendleton Ward, you are a genius.

This is a great little book written from Abadeer's perspective on the Land of Ooo and its many inhabitants, with margin comments by Marceline, Finn, and Jake. It should be noted however, that there is no "new" information in this book. Perhaps to some who haven't seen all the episodes (or are just starting to get into the show), some sections may certainly help clear things up, but for the most part this is a book made to accompany the existing canon in a more streamlined fashion rather than give insight into unknown aspects of the Land of Ooo. The book's sections are as follows:-- Detailed bio pages on Finn, Jake, PB, Marceline, Ice King, Lady Rainicorn, and LSP.-- A-to-Z mini bios on recurring / minor characters-- A mini glossary on Wizards-- A mini glossary on Princesses-- Ice King's fanfiction (made to look as though drawn and written by Ice King himself)-- An instruction manual for BMO-- PB's Travel Guide to the Candy Kingdom and Beyond-- Marceline's Travel Blog for Demon Backpackers-- Excerpts from The Enchiridion-- Abadeer's Novelty Spells and Cures-- Rather creepy end pages which I will leave you to discover for yourself, but let this be a warning that it may not be appropriate for young children. Now as much as I enjoy the consistent writing style and voice throughout, there are some missing characters whose absences I can't really understand, particularly when Abadeer really has no business knowing a few of the characters that /were/ included in the book. Granted, I understand that not every single character can be included, but I can't really make a case for every character that was included in the book either. Off the top of my head, here are a few notable characters missing from the A-to-Z mini bios:-- Flame Princess (I would just like to point out that she only "appears" twice: First in Finn's bio pages when she's described as his "rebound fixation," and second in PB's guide to the Fire Kingdom when she's described as the Flame King's "very hip teenage daughter." That's it. Nothing else about her.)-- Gumball Guardian-- Cosmic Owl-- Pillow People-- Island Lady-- Prismo-- Psychic War Elephant-- Bounce House Princess-- Lady Rainicorn's parents (as a preemptive note to the angry commenter, Jake's and LSP's parents are included.)-- Sleeping Magi-- probably several others. In short, I still very much enjoyed Abadeer's humor in this book and, while I don't really understand how some characters were included over others, I would recommend this as a gift to anyone who enjoys Adventure Time, provided they understand that they won't really receive any "behind the scenes info," as one reviewer has criticized. Read the book description before you decided whether you would like to purchase the book; it'll save you a world of imagined disappointment.

From the Back Cover: Written by the Lord of Evil Himself, Hunson Abadeer (a.k.a. Marceline the Vampire Queen's dad), to instruct and confound the demonic citizenry of the Nightosphere, The Adventure Time Encyclopaedia is perhaps the most dangerous book in history.
