I wanted to give him something tangible though, to touch and go at his own pace. And help with the joy of learning to read. This book is the movie in a book - he was overjoyed to read the same lines. But it is not boring - the story and artwork is all over the page and gorgeous and colorful. You won't be sorry you got this.1 of 1 people found the following review helpful. Great.By Elvia1234Great item. It encouraged my daughter to read as the movie is one of her favorite movies. Shipping was prompt and item received in great condition, just as described.4 of 4 people found the following review helpful. What a Awesome Book!By Movie ReviewsMy kids just loved this book! They loved the movie and this book was a great way to see how they put everything together for the movie! It has the entire original script and tons of photos on how the movie was made! My kids loved it and it was well worth the money!

The script for the movie, profusely illustrated with conceptual designs, preproduction art, character sketches, and behind-the-scenes photos.
