Marvel Comics : The Amazing Spider-Man: Behind the Scenes and Beyond the Web before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Amazing Spider-Man: Behind the Scenes and Beyond the Web:

0 of 0 people found the following review helpful. Needs More Art, Less Still Frames By benjamin bannister I have enough art books now to know what makes a great one. This is a well-packaged book with slightly above average content. The book is a large and heavy coffee table book with a thick cardboard slipcase. The book cover and the slipcase have different artwork on them, so that's a good sign they aren't repeating elements. However, I immediately took off a star as I was glancing through the pages because there were too many shots from the film duplicated in the book. I didn't want a book of screenshots, I wanted a book of unreleased conceptual artwork. Now, I know the book doesn't say "Art Of" like the other Marvel Art Of books, but it's packaged the same exact way. This is titled with "Behind the Scenes," so I let it slide a little. Inside you will find concept artwork and sketches for everything you would expect from a comic book movie: character designs, costume alternatives, potential web-slinging options, location drawings, many storyboards, and more. The layout of some pages seems a bit lazy. There are lots of whole-page or two-page spreads with one large production still and a small block of text for an artist's blurb. It feels

uninspiring. Typography could use some work because a lot of the text tries to fill up space all the way to the edges of the pages you gotta let the content breathe. The ideas and concepts shown are all amazing, but I wanted more of that instead of movie stills. It's Spider-Man and it's Marvel (partially), so, of course, I bought this. Hopefully, the upcoming "Spider-Man: Homecoming" movie will have a better Art Of book. 0 of 0 people found the following review helpful. ...

Cinematic Universe artbooks but this solely focuses on the Amazing Spiderman film talks about the characters the cast concept art the suit and has photos from the film this book was written and put together very well 0 of 0 people found the following review helpful.

Amazing book! By Carl Amazing book! Any Spider-Man fan would love it. I highly recommend this product

Continuing their popular ART OF series of movie tie-in books, Marvel presents its latest blockbuster achievement! Featuring exclusive concept artwork, behind-the-scenes photographs, production stills, and in-depth interviews with the cast and crew, **THE AMAZING SPIDER-MAN: THE ART OF THE MOVIE** is a deluxe keepsake volume that provides an insider's look into the making of the wall-crawler's 2012 film directed by Marc Webb, and starring Andrew Garfield, Emma Stone, Rhys Ifans, Denis Leary and Martin Sheen!
