**Helen McCarthy : The Anime Movie Guide: Movie-by-Movie Guide to Japanese Animation since 1983** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Anime Movie Guide: Movie-by-Movie Guide to Japanese Animation since 1983:

5 of 6 people found the following review helpful. Not COMPLETELY complete, but pretty darn close.By Erik SchultzIf you ever needed to look up an anime OVA or movie title, be it the original Japnese title of it's English translation, you could probably find it here. I've only noticed one omission, but found a lot of other titles I've never

heard of. 9 of 10 people found the following review helpful. *The Ultimate Companion Guide to Anime!* By Clay Wetherill If you're looking for the perfect companion to keep you informed in the anime movie business, then this is the book for you. Not only does it contain titles on every anime movie or series between 1983 to 1995, but it also gives you your money's worth of information. From important people that had to do with the anime, to translations for beginners, a short summary of the anime, references to other anime, and side notes to keep your interest. Every anime that this book has recommended is a must see. This is a great book if you're looking for an anime but don't know whether or not to see it. It still brings a tear to my eyes. 9 of 10 people found the following review helpful. An excellent source for reviews and opinions of anime. By A Customer *The Anime: movie guide*, has a wonderful display of illustrations, reviews and information protruding from its pages. Although it is in great need of an update now, it has a wonderful selection of top ten lists, a very well made index and even a few helping words to get the new anime fan started. An excellent layout and page format. The only area I disliked was the way the categories were placed, I felt the icons on *The Complete Anime Guides* were much easier to use. Despite this negative area, *The Anime: Movie Guide* by Helan McCarthy is truly a book in which all anime fans should partake in.

This is the most complete film-by-film guide to anime with more than 750 listings of films and videos.

About the Author Helen McCarthy is the leading expert on Japanese animation.
