OsullivanAll the art work ever done for Hammer movies, common and rare posters and window/lobbycards.Trip down memory lane or could be used for as a visual guide for artists and school art class, especially earlier posters that were painted then printed for posters.A feast of art work for Hammer fans!5 of 6 people found the following review helpful. Fantastic collection of poster artBy Deslock44Fantastic collection of poster art. I've had two of these books. One to put some of the art in small 8X10 frames since it is so nice and one to keep unopened. very good all around and a great buy.1 of 2 people found the following review helpful. Tremendous collection of paintingsBy Castor HoyleI freaking love this collection! Quite thorough! They start off with Hammer's earliest film posters way back before Drac' got his wings!

Stunning, stunning art. Infinitely better than most American artists were creating for movie posters during that time.

Hammer Films were almost as well known for the way in which they sold their films, as for the films themselves. The Art of Hammer is the first ever collection of the company's iconic movie posters, and is a celebration of movie art at its best. This large format, lavish hardback is now fully updated and brings together hundreds of rare posters from around the world, featuring Hammer's greatest films.

"Hammer Films gave us some of the world's most unforgettable, most awesome movies. But they also gave us some of the most beautiful poster art of all time. "...serious eye candy for horror and Hammer fans alike."--MovieFone "A must for the Hammer fan in your life." -popdose.com "The Art of Hammer: The Official Poster Collection From the Archive of Hammer Films is a great addition to your personal library, and one that should take up some room on your coffee table so it can entertain your guests. It's a celebration of the Hammer legacy, a time capsule that gives praise and serious study to an artform that no one suspected was an artform at the time of its creation."--Coming Attractions "As many of the original pieces were destroyed by theaters after they were used, a book like this serves as an inexpensive way to look into the past and see how far the art of movie posters has come, or how far it has fallen." - The Writer's Journey About the Author Marcus Hearn is the acclaimed author of Titans The Art of Hammer, Hammer Glamour and The Hammer Story (with Alan Barnes). His other books include authorised biographies of filmmakers George Lucas and Gerry Anderson, and Eight Days a Week, the story of The Beatles final world tour.
