By Jon LeGrand Great art and information, but I was hoping for more photos from the movie to be included. Except for those of the actors, most of the pictures are of well painted storyboards.

By susi079A great read! The book also has wonderful photos, art work, and insight to the making of this epic movie. And Tom Hiddleston is so delightful to see as Captain James Conrad. Sorry, can't resist. LOL! Definitely one of my most fave movies in Spring 2017.

In March 2017, the producers of Godzilla transport audiences to the birthplace of one of the most powerful monster myths of all in KONG: SKULL ISLAND, from Warner Bros. Pictures and Legendary Pictures. When a scientific expedition to an uncharted island awakens titanic forces of nature, a mission of discovery becomes an explosive war between monster and man. Tom Hiddleston, Samuel L. Jackson, Brie Larson, John Goodman and John C. Reilly star in a thrilling and original new adventure that reveals the untold story of how Kong became King. The Art and Making of Kong: Skull Island goes behind the scenes and reveals how this monster-sized production was brought to the screen. Featuring incredible concept art and on-set photography, this deluxe book is a rare treat for fans as key cast and crew tell the story of how Kong was given a whole new lease of life. 2016 LEGENDARY.
