Disappointing.By Chaz WilsonIt's a nice book..quality book... but what's disappointing about it is that the book is nothing but information from Star Trek the magazine. its previous articles written for Star Trek magazine so if you have the magazine collection you've got all the articles. They just cherry-picked the articles about the movies.3 of 3 people found the following review helpful. Great bookBy A. GrableI think this is an awesome book. Collected article compilation mostly covering the 2 reboot movies and the first 2 original series Movies.3 of 4 people found the following review helpful. Wonderful Tribute to Star Trek's 50th yearBy CustomerI really like this special edition of the Star Trek movies. There is a lot of emphasis on the newer movies and I

wish it were more balanced. That would be my only complaint. After all I really do like all of Star Trek. A lot of interesting and in depth interviews with the new cast members and the book is loaded with very nice photographs. Also a number of behind the scenes crew interviews. The book includes an interview with Leonard Nimoy and one with Katherine Hicks who was in the movie Voyage Home. Nimoy has very interesting insights about his Spock character in the new ST movies. Overall this magazine is a wonderful tribute to recognizing Star Trek's 50th year and going beyond.
