Ethan Coen, Joel Coen : The Big Lebowski before purchasing it in order to gage whether or not it would be worth my time, and all praised The Big Lebowski:

You know what I'm saying..."By chris learyI love The Big Lebowski, and seeing this movie by reading the script, adds another dimension of "funny" to the story for me. The Coen brothers are extremely talented, as are all of the people involved in making this movie happen. The script reads much like the dialogue in the movie. The great

bonus is that the script is not exactly like the dialogue, so you get to read a slightly different version of the story, only slightly, but I like the little nuanced differences. Another bonus, there are pictures in this script. The clarity of the pictures in my copy are not very good, but I really don't care. I've seen the movie a thousand times so they're just a nice little "side thing". I highly recommend this to anyone who is into The Big Lebowski, just think, if you are camping in the woods, or stuck in a power outage, you don't need a tablet, or a DVD player, just your mind.0 of 0 people found the following review helpful. If you quote this movie, read the screenplay for even more insight!By CustomerThis is one of my all-time favorite movies. I've seen it many times and have bought it in multiple formats.I finally got around to reading the screenplay and I loved it. Yes, it's pretty much the same as the movie. But not quite. Evidently some of the best lines in the movie were improvised by the actors. However, I got the biggest thrills from the parts that were actually exactly as written. Wow. They actually captured the essence of these actors -- down to the self-interruptions and half-finished sentences -- long before shooting the film. I'm in awe. If I ever decide to write a screenplay, this will be my textbook.0 of 0 people found the following review helpful. The Dude...By Beach loverHubby loves everything related to the movie. He is a bit obsessed, actually. We have a room with several framed paintings of 'The Dude' and this book just adds to the collection of The Big L 'stuff' we own. Crazy, but he likes it, so oh well... The screenplay gives a whole new perspective of the movie.. interesting read.

The Big Lebowski begins with a case of mistaken identity which escalates when Jeffrey Lebowski-alias The Dude-attempts to seek recompense for the despoliation of his ratty-ass little rug, and then finds himself entangled in a kidnapping caper as a bagman-a situation that goes from bad to worse due to the interference of his hapless bowling partners.In this film the Coen brothers have taken on the preoccupations of Raymond Chandler, but have given them a postmodern spin, while at the same time leaving Philip Marlowe's ethos intact as The Dude wanders through the fractured world of nineties L.A. trying to do the right thing. Like the award winning Fargo, The Big Lebowski is suffused with a droll humor and a verbal felicity that is as delightful as it is startling.
