Pam Cook's "The Cinema Book" was on the recommended list when I was an undergrad and I am beyond happy that I bought it. This is not a "best of" movies book. It is an amazing collection of short articles from hundreds of film scholars. The book covers world cinema, genre, the studio system, authorship, structuralism, Hollywood and some theory.

The Cinema Book' is widely recognised as the ultimate guide to cinema. Authoritative and comprehensive, the third edition has been extensively revised, updated and expanded in response to developments in cinema and cinema

studies. Lavishly illustrated in colour, this edition features a wealth of exciting new sections and in-depth case studies.
