From Koeck Richard Roberts Les : The City and the Moving Image: Urban Projections before purchasing it in order to gage whether or not it would be worth my time, and all praised The City and the Moving Image: Urban Projections:

This edited collection explores the relationship between urban space, architecture and the moving image. Drawing on interdisciplinary approaches to film and moving image practices, the book explores the recent developments in research on film and urban landscapes, pointing towards new theoretical and methodological frameworks for discussion.
