I have come to know and love each of the characters in this series so the thought that this was the last time I would read about them made me sad. Nevertheless, "When Nature Calls, Hang Up!" didn't disappoint this fan of the series. In fact, it is even funnier, more

action-packed, and heartwarming than all the books in the series. Give this book to any kid who worries about middle school. They will not only be entertained but also read about some really good middle school characters and find out that good things do happen in middle school. I thank Robin Mellom for every book in THE CLASSROOM series and most especially this final installment. Not many books for the middle grade age group appeal to both boys and girls - THE CLASSROOM series definitely does. "When Nature Calls, Hang Up!" is a definite winner! 0 of 0 people found the following review helpful. Hard to Say Good-Bye to These Wonderful Characters! By Callie I loved this fourth book in Robin Mellom's middle grade series. I've read each book in the series and once again I was laughing, giggling, tearing up, just about every emotion as I told these characters good-bye. I tried to guess what would happen in this final book, but the author surprised me as she always does with unexpected twists and turns. Readers will enjoy reading about how Trevor finishes up his first year in middle school because he is indeed, epic! 0 of 0 people found the following review helpful. I want more! By Peter DeHaan Robin Mellom keeps the humor and hijinks going in this fourth Classroom book. She's simply the best at capturing pre-teen reality, covered with a good dose of humor.

A documentary crew has descended upon Westside Middle School to detail the life of an average seventh grader named Trevor Jones and his classmates. The one-on-one interviews, film footages, and camp journals will chronicle the dangerous and highly awkward overnight field trip to Camp Whispering Pines. Trevor Jones will have plenty to worry about: snakes, bears, dining halls, and eighth graders. To make matters worse, Trevor is paired with a special "sensitivity buddy"-longtime frenemy Corey Long. It's possible that with a lot of luck (and a little help), Trevor Jones might come out of this trip alive. If he can survive Corey Long and the outdoors, he may finally have a chance at being epic.
