Joel Mciver : The Complete History of Black Sabbath: What Evil Lurks before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete History of Black Sabbath: What Evil Lurks:

0 of 0 people found the following review helpful. Great book on Black SabbathBy B. DanielsThis is a great book from there humble beginnings, thru the peaks and valleys. To being on the top of the rock/ heavy metal world. This book talks about everything. The good, the bad and the ugly. It covers all the lineups of Black Sabbath and the solo projects. This book includes many pictures that I've never seen before.0 of 0 people found the following review helpful. Pretty good read.By wesley e willsThe early years were very interesting. All of the band member changes get a little monotonous. Reading about Ozzy through the years was also interesting. Hope someday he gets to work with Paul McCartney.0 of 0 people found the following review helpful. Long Live Black SabbathBy Starfighter2012I thought this book was excellent. I bought it as a gift for my friend but was offered a digital book at a cheap price. I downloaded it to my phone and could not stop reading it. I loved it so much I bought real book to have for my collection.

They are the band that created metal music . . . and they have defined it for more than four decades. Black Sabbath's career spans eleven different line-ups and nineteen studio albums in addition to the twenty-eight solo albums of the original four members. The band began in 1968 as a blues rock band on the cover circuit of Birmingham, England. Clawing their way up from the postwar bombed-out suburbs of Birmingham, the four members - guitarist and main songwriter Tony Iommi, bassist and main lyricist Geezer Butler, singer Ozzy Osbourne, and drummer Bill Ward - would define a new genre of music and make themselves world famous. Joel McIver explores the complete history of Sabbath, from the precursor bands to the release of the holy trinity of heavy metal - "Black Sabbath" (the song) on Black Sabbath (the album) by Black Sabbath (the band) - to the present. With over 150 photos, a gatefold family tree tracing the development of the band, a complete discography, and a foreword by Machine Head frontman Robb Flynn, this is the must-have book for any Sabbath fan.

"It's a beautiful book plenty of excellent and never-before-seen pics...Nothing quite says Christmas like Black Sabbath, so this book should be a welcome present under the tree for that metal fan in the family." - TheDay.com
