From Routledge : The Contemporary Hollywood Reader before purchasing it in order to gage whether or not it would be worth my time, and all praised The Contemporary Hollywood Reader:

We are all experts about Hollywood. We have to be, given its iconic power as the global source of so much entertainment. Designed to add to existing expertise as a movie-goer, The Contemporary Hollywood Reader enables students to enter into the thematic, critical, artistic, economic, and political debates on Hollywood. The Contemporary Hollywood Reader is a dynamic selection of scholarly writings on Hollywood from the post-World War II period

onwards, divided into three sections, each with contextualizing introductions from the Editor. The sections, Production, Text, and Circulation, address all the major perspectives on Hollywood allowing equal attention to the field, in both thematic and disciplinary senses. In this collection, Toby Miller offers a plural, open guide to major scholarly tendencies in writing about Hollywood with a mixture of familiar and less familiar works. While the Reader draws on research undertaken within US-UK film or cinema studies, it also ventures further afield, bringing together the most stimulating materials available on the subject.

About the Author Toby Miller is Professor of Media Cultural Studies at the University of California, Riverside. His teaching and research cover media, sport, labor, gender, race, citizenship, politics, and cultural policy. Toby is the author and editor of over 20 volumes, and has published essays in over 100 journals and books. His current research covers the success of Hollywood overseas, the links between culture and citizenship, and anti-Americanism.
