It's a very great book and I got a good price on it ...By mikeIt's a very great book and I got a good price on it thank you very much for the great buy and the book came in in perfect condition thank you very much sincerely Mike Goddard4 of 4 people found the following review helpful. Good Book But Not Great!By Hengky TanoyoI am an avid Batman fans. I purchased The Art of Batman Begins and normally I also purchased this book. I like this book way better than The Art of Batman Begins. It has more behind the scenes look and the script which was absent in the AOB. My complaints for this book: Not enough coverage on the designs on Two Face, which I wouldn't mind seeing more of. The part where they discuss the making of the Joker is good, but

we've seen many of his in pre-release promo materials, so not much surprise there. Overall, I still find this book a good addition to Batman movies fans everywhere. 0 of 0 people found the following review helpful. AwesomeBy Abdulmalik KhanIt was a great pick, I love this book because of the pictures and the the way the script has little side pictures to explain some scenes.

Critically acclaimed director Christopher Nolan followed up his blockbuster film Batman Begins with The Dark Knight. Batman Begins was a successful re-boot of the popular Batman franchise, and The Dark Knight sequel takes the fresh perspective further, developing the highly anticipated, raw cat-and-mouse game between our superhero Batman and his twisted arch-nemesis The Joker. Celebrated stars include Christian Bale, Michael Caine, Morgan Freeman, and Gary Oldman, returning as Batman, Alfred, Lucius Fox, and Lieutenant Gordon, respectively; and new additions Heath Ledger as The Joker, as well as Maggie Gyllenhaal, and Aaron Eckhart. The Dark Knight is the ultimate companion book to the movie, showcasing production ephemera including storyboard art, character sketches, Nolans original shooting script, still photos, and even personal behind-the-scenes material created by the Nolans and Crowley during the movie. The Dark Knight is certain to appeal to diehard and new fans alike.

Whether read from cover to cover or just casually flippedthis is one book Batman fanatics with an appreciation for visuals cant be without. ~Bookgasm.com"Teens who want to delve more deeply in the movie's essence will be captivated by Craig Byrne's The Dark Knight from Universe Publishing." ~School Library Journal
