**Ronald W. Lackmann : The Encyclopedia of American Television: Broadcast Programming Post World War II to 2000** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia of American Television: Broadcast Programming Post World War II to 2000:

This guide is a celebration of television as well as a fact-filled reference. It provides a historical guide to the programmes, personalities, and practices of network television from its early days to the end of the 20th century. From game shows to the nightly news, from sitcoms to serious dramas and everything in between, 1000 entries provide story synopses, biographies, production histories, and air dates. Also featured are two appendixes - the top-rated

programmes from 1952-1999 and the National Academy of Television Arts and Sciences Annual Emmy Award winners from the second half of the 20th century. Among the shows, characters, and topics covered are: "The Addams Family"; the "Bing Crosby Show"; "Captain Kangaroo"; "Dynasty"; Andy Griffith; Michael Landon; Mary Tyler Moore; and "Star Trek".
