Victor Mollo : The Finer Arts of Bridge: A Textbook on Psychology before purchasing it in order to gage whether or not it would be worth my time, and all praised The Finer Arts of Bridge: A Textbook on Psychology:

1 of 4 people found the following review helpful. I'm really not sure I'll believe anyone's descriptions of condition any more.By TaffyI have read a friend's copy of this book and so I was happy to go ahead and buy it on that basis.What was most galling, however, was that despite the seller's rating of "used very good" with no damage or marks, for a number of the illustrated bridge hands, cards had been marked off by some moron in ink, presumably as they were mentally playing the cards sequentially.This meant that I couldn't read the book without the anger and resentment of constant reminders of the way some people desecrate books. The cost involved in packing up and returning the book to the seller in the US would have been prohibitive so I photocopied the dozen or so equivalent pages from my friend's book and pasted cut-outs over the mutilated sections.

London published Bridge
