Paul Balmer : The Gibson Les Paul Handbook - New Edition: How To Buy, Maintain, Set Up, Troubleshoot, and Modify Your Gibson and Epiphone Les Paul before purchasing it in order to gage whether or not it would be worth my time, and all praised The Gibson Les Paul Handbook - New Edition: How To Buy, Maintain, Set Up, Troubleshoot, and Modify Your Gibson and Epiphone Les Paul:

8 of 8 people found the following review helpful. Good manualBy jeff hThis is a decent manual for any Les Paul owner or enthusiast. I wish they would have offered more wiring diagrams and more information about

troubleshooting, and less info on musicians that play Les Paul's, and a brief Les Paul history. After all the book is suppose to be, " how to buy, maintain, set up, troubleshoot, and modify your Les Paul". There are plenty of books on the history of les paul guitars, and musicians that use them. I ended up ordering another les paul book that covers wiring. All in all, this is a decent manual. A little dissapointing, but I would still recommend this.0 of 0 people found the following review helpful. Five StarsBy pogo 1104great book good info1 of 1 people found the following review helpful. I have a few I bought like new at prices that allow one to ignore the ...By ahigherauthorityBalmer has a formulaic style among the various brands and models he surveys. I have a few I bought like new at prices that allow one to ignore the repetition and focus on the info you need. Try any one and you will know if you want another volume on a different guitar (or bass).

The first ever hands-on how-to manual devoted to the famous Gibson Les Paul is now updated with the latest models and guitar-tech advice.
