This is a book full of re-prints of the old sheet music that would cost a small fortune to buy individually. So glad to find this great book. My husband plays the piano twice a month for some very special elderly people at a local nursing home, and they love hearing the oldies. Now, he has some "new" oldies to play for them.2 of 2 people found the following review helpful. Not as good as volume oneBy Karl BakerA good collection of songs from the past but not nearly as good as volume one. I found more than not of unfamiliar songs. At the same time there were a few "gems" from the past that made the purchase worthwhile.1 of 1 people found the following review helpful. Good reference and fun,
