These books were for my granddaughter who likes challenging projects and we will use them during an upcoming family trip to Florida. It is often hit and miss when dealing with a new company but does a good job vetting the companies they deal with and the review system certainly helps purchasers. It is always a good feeling to get value for money and in this case I felt the quality of the books was very good. I did look at other dot to dot books but felt they were not well designed, in the case of these books they were well thought out and the suggestions offered were very helpful.6 of 6 people found the following review helpful. LOADS OF FUN!!!By Susan StammThese are amazing fun. I'm a "senior citizen" and it keeps my mind active with interesting, challenging puzzles. Not your run of the mill puzzle books.0 of 0 people found the following review helpful. Author Uses Symbols Dot to DotBy ChipmunkaI bought books 3-8. Even at book 3,you need great eyes to do them. When you get to books 7-8, the author used other methods other than dot to dot to complete the picture. He uses symbols- even before book 8. I only wanted dot to dot. that's why I gave these books a 4.It's like needing geometry to complete many of these pages.

Once you start, you can't stop! They're irresistible to kids and adults. Incredible images appear before your eyes when you connect the dots in this set of 2 mind-blowing books! As you connect the dots, you'll have no clue as to what your "masterpiece" will be! Great stress reliever and perfect for travel, vacations, and more. Softcover. 48 pages.
