Definitely better than a lot of dot-to-dots Ive purchased.0 of 0 people found the following review helpful. Five StarsBy aceGreat Book

Featuring connect-the-dot puzzles from syndicated newspaper columns, this book packs a big punch with pocket-sized but intricate designs for readers to decipher. In addition to traditional connect-the-dots, you'll find unique innovations such as connecting odd/even numbers and other multiple line variations. Each final image is a small treasure... beautifully drawn and charming. A wide variety of subject matter further adds to the final surprise. From the publishers of "The Greatest Dot-to-Dot Books in the World" series. Great for gifts and travel! Ages 8 to adult.
