5 of 5 people found the following review helpful. Both my daughter and I enjoy this book. By John J. O'Neill It has both music notation and the chords. Sure the chords in some of the songs come across very simplified but with the notation right there it still works for better guitarists. If you get to a part of a song where it shows to keep strumming a single chord for too long just play the individual notes on the sheet if you feel the need. This book spends more time on a

music stand than the shelf at our house.0 of 0 people found the following review helpful. Five StarsBy InTheSun13Good book! A lot of great songs.0 of 0 people found the following review helpful. Five StarsBy ToneGood
