**Patrick Min : the Huge Killer Sudoku Book: 2nd edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised the Huge Killer Sudoku Book: 2nd edition:

0 of 0 people found the following review helpful. I LOVE KILLER SUDOKU!By SEWN5I highly recommend this book, if you love puzzles. Many hours of fun for very few pennies! This is NOT for the fainthearted or beginners. But the lovers of Sudoku and Killer Sudoku will be happily entertained for hours!0 of 0 people found the following review helpful. Excellent variety of puzzles for all skill levelsBy rossinimanThis is a tremendous book. The puzzles mix two concepts, each intriguing on its own, sudoku and ken ken. The puzzles run the whole range from very easy and straightforward to complete mysteries, and everything in between. The antidote to alzheimers -- keep those brain cells

active!

This book has 250 of the popular Killer Sudoku puzzles, ranging from easy to very challenging. There are five categories: "Warmup" (with 25 puzzles), "Easy" (50), "Medium" (50), "Tricky" (50), and "Difficult" (75) (so no puzzle is actually impossible :-). Solving a Killer Sudoku takes a combination of Sudoku-style logic reasoning and basic math skills, making it a much more interesting puzzle. The puzzles are by the author of the popular Calcudoku puzzle books. Solve both Calcudoku and Killer Sudoku puzzles online at [calcudoku.org](http://calcudoku.org) and score points! You can even submit solutions for the difficult puzzles in this book, and score points for each correct solution. This is the 2nd edition which has the solutions of all puzzles in the back (in other words, it is identical to the 1st edition + all solutions). To get a sense of the difficulty level of the puzzles in this book, go to [calcudoku.org/killersudoku](http://calcudoku.org/killersudoku) (which has difficult puzzles on Friday, Saturday, and Sunday). Do also check out the new Colossal Killer Sudoku book, and my Calcudoku books (simply click on my name near the top of the page).

About the Author Patrick Min is a freelance scientific programmer. He specializes in geometry software, but has worked in many other areas, such as search engine technology, acoustic modelling, and information security. He has published papers and open source software in several. He holds a Master's degree in Computer Science from Leiden University, the Netherlands, and a Ph.D. in Computer Science from Princeton University. He is also a puzzle enthusiast, devising math puzzles for his father since the age of 7. This continues to this date, with dad solving his son's Calcudoku puzzles. Patrick lives in London.
