1 of 1 people found the following review helpful. Good clean, silly fun. Loved it. By TriCruiser2000 This series of books is just too much silly fun but along with the silly are some facts about singers and actors and critters and the bottom line is I just can't put it down. Good fun 1 of 1 people found the following review helpful. Lives up to its name. By Seattle Reader Lives up to its name perfectly. Not one piece of information has any use whatsoever, but at the same time is fascinating. Makes a person want to find an occasion when it is useful, or figure out how to bring it up in conversation. This book is a waste of time, and a "must read". Enjoyable! 0 of 0 people found the following review helpful. Five Stars By Dean Vilhauer Comforting, relaxing reading

The #1 New York Times bestselling series continues to delight and astound with an all-new collection of surprisingly unnecessary facts and figures. Would it surprise you to learn it takes a sloth about a month to digest a meal? more tourists visit France than any other nation in the world? the United States still has debt from the Revolutionary War? Do you think you ever need to know what type of trees are most frequently struck by lightning? how much a clerk was paid for penning the U.S. Constitution? which celebrity uses the pseudonym Slappy White?
