Denes Agay : The Joy of First Year Piano (Joy Of...Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Joy of First Year Piano (Joy Of...Series):

By Piano Man New Hampshire Somehow, the new, blue-covered edition acquired a bizarre error that the yellow-covered edition didn't have. Balkan Bagatelle, which is in the key of E minor, has the F# printed in the first space of treble clef rather than on the top line. Other than having a chimpanzee in charge of the new edition, I have no explanation for how or why this could have happened. All of the old timing errors from the old, yellow-covered edition have been genetically passed along to the new, blue-covered edition. There are six beats in the bass clef's last measure of White Sails - a tune that's in 5-4 time. There's a 4-4 time signature in The Birch Tree which is notated with two quarter note beats in a measure. Overall this is a great method book but I wish the publisher would

fix the glaring errors that have been lurking on the pages of this method book for the past four decades. 2 of 2 people found the following review helpful. Great for older beginners By Helen Mayer I am a piano teacher, and used to use this book for years for my older and adult beginners. I ran out on this product (I used to get them a couple at a time to pass out to students, as it was hard to get), and ran into the problem of not being able to locate any more. I decided to have a look the other day, and was so happy to order more. Denes Agay makes an accompanying Technique book, but it's not available on or in the States, I think... I wish would carry that... 1 of 1 people found the following review helpful. Excellent practice pieces By ih Great option for a child beginning to play piano.

(Yorktown). Designed for use as a method book, this volume allows the teacher to vary the approach according to the needs of the student. The book can also be used as a source of carefully graded pieces, for use with any first-year method.
